AUTO SLEEP
0-99 mins

AUTO POWER OFF
0-99 mins

- 1.By using 0.56 inch blue trinity digital tube LED displays the temperature value, and tem
- 2.Temperature range 200-480°C (392-896°F), temperature deviation is linear and can be calibrated by itself.
- 3.High power transformer ensures fast temperature compensation, max. power is 75W
- 4.With designed with standby mode and product can enter sleep state automatically, which guaranteed the durable life.
- 5.Auto power off function improves both product safety and environmental protection.
- 6.Temperature units shift with Centigrade and Fahrenheit to satisfy market demands.

SPECIFICATION

Input Voltage	AC110/220V
Power consumption	75W
Temperature Range	200°C-480°C/392°F-896°F
Temperature Stability	±1°C
Temperature Display	Digital (LED blue)
Heater	A1321 (Pluggable heating core)
Tip to Ground Resistance	≤2Ω
Tip to Ground Voltage	≤2mV
Weight	1.8KG
Dimension	140*115*85mm
