

## Full Auto Balloon Screen Printing Machine(GW-QQJ-AT-1C)

Model number: GW-QQJ-AT-1C

Printing area: 120\*110 mm

Printing speed: 2000 pieces per hour

Machine size: 7.5(L)\*1.2(W)\*1.7(H) m

Gross weight: 1900 kg

MOQ: 1 set

Payment terms: T/T, Western Union, Paypal, L/C

Package way: plywood

Delivery way: by sea

Lead time: within 30 workdays

### Application:

The balloon printing production line, including frame, conveying device installed on the frame and many sets of printing device, balloon clip and discharge device, the balloon positioning device, blow device and CNC system. conveying device install many balloon clip and discharge device with positioning, balloon clip and discharge device and balloon positioning setting are one-to-one.

Balloon printing machine in the process of the balloon printing by transmission device into a production line, so that greatly improve the efficiency of the printing. the balloon will fix position by balloon positioning device, like that balloon will not move when machine printing balloon, logo distinct, which avoid logo overlap and shifting, thus improve printing quality.

### Technical parameter:

printing color: 1 color

mainframe power: 1.5 kw

air pressure: 0.8 MPa

frame size: 645\*220 mm

dimension: 7.5(L)\*1.2(W)\*1.7(H) m

net weight: 1500 kg

print size: 120\*110 mm

capacity: 2000 pieces/hour
