- 6.characteristic
- Open ink cup design ,easy to add ink or other impregnant
- simple ink cup structure ,easy to clean
- Unique ink cup structure ,easy to clean.
- 7.Good quality Japan and european Pneumatic parts
- 8.Famous axletree with good quality,resistance to abrasion ,long life
- 9.Machine can be installed with safty guard and emergency stop to be international standard

Technical parameter:

Steel plate size:100*215 mm
Closed ink cup diameter: 90 mm

Print size: 90*90mm
Printng speed:1800PCS/HR
Power:220V 50-60MHZ
Air pressure:5-7 BAR
Machine size:560*420*1200 mm
Weight:70kgs
printing station1PC
