

# KNX TRAINING SYSTEM COME WITH COMPUTER SOFTWARE AND LICENSE

Model Number : GOTT-KNX-P01

## DESCRIPTION

These benches are made up of a set of KNX modules adapted for training purposes. They are designed for controlling functions such as lighting, heating, blinds and sockets in commercial buildings.

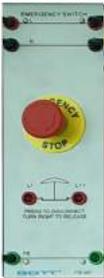

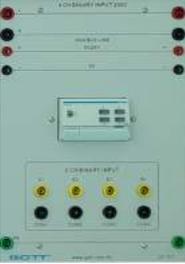

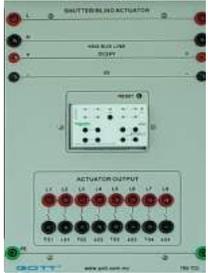

The KNX Training System solution is a standard familiarization package for the most common functions and can be used to highlight how much easier it is to set up compared to traditional wiring. This trainer can be complemented by actual operative parts such as the roller blind offered and etc.

Training Package : KNX Installation Bus System

MOTION DETECTOR	CODE 785-708	SYSTEM LINE COUPLER	CODE 201-405	DUAL CONTROL SWITCH	CODE 785-704	HALOGEN DOWNLIGHT	CODE 588-045
<ul style="list-style-type: none"> <li>• Operation timer period from 1s-8min</li> <li>• Light threshold(light-sensitive switch)</li> <li>• Detection Angle : 180 degree</li> <li>• Sensing Distance: 8 meter</li> <li>• Light Sensor : continuously adjustable from 5 to 1000 lux</li> </ul>		<ul style="list-style-type: none"> <li>• Used for the logical linking and galvanic separation of line and domain</li> <li>• In coupler mode the component is wired in parallel on the bus and creates a new line (or zone) to separate the main line and the subline</li> <li>• In repeater mode, the coupler reacts as extender to component line</li> </ul>		<ul style="list-style-type: none"> <li>• Keys can be configured as pairs of ( Up and Down) and on/off switch</li> <li>• Individual function programming</li> <li>• Indication LED</li> <li>• Variable control</li> <li>• Sequences</li> <li>• Blind control</li> </ul>		<ul style="list-style-type: none"> <li>• Rated input Voltage : 230 VAC</li> <li>• Lamp with individual 4mm input socket</li> </ul>	
							
<ul style="list-style-type: none"> <li>• Glass surface with touch sensitive</li> <li>• Selector switch</li> <li>• Variable Control (Paired or single)</li> <li>• Blind control (Paired or single)</li> <li>• Edge triggering data packet :1-8bits</li> <li>• Edge with 2 byte data packets</li> <li>• 8 bit sliding controller</li> <li>• Sequence storage and recall</li> <li>• Scene &amp; interlock function</li> </ul>	CODE 785-707	<ul style="list-style-type: none"> <li>• Switch with short and long press with bounce free contact</li> <li>• Selector switch</li> <li>• Variable Control (Paired or single)</li> <li>• Blind control (Paired or single)</li> <li>• Edge triggering data packet :1-8bits</li> <li>• Edge with 2 byte data packets</li> <li>• 8 bit sliding controller</li> <li>• Sequence storage and recall</li> <li>• Scene &amp; interlock function</li> <li>• Programmable IR Transmitter remote</li> </ul>	CODE 785-705	<ul style="list-style-type: none"> <li>• Switch with short and long press with bounce -free contact</li> <li>• Built in display panel and internal temperature sensor</li> <li>• Variable Control (Paired or single)</li> <li>• Blind control (Paired or single )</li> <li>• Edge triggering data packet :1-8bits</li> <li>• Edge with 2 byte data packets</li> <li>• 8 bit sliding controller</li> <li>• Sequence storage and recall</li> <li>• Scene &amp; interlock function</li> </ul>	CODE 785-706	<ul style="list-style-type: none"> <li>• Input voltage: AC220-240V</li> <li>• FCCB 2 Pole 16A</li> <li>• RCCB 2 pole 25A</li> </ul>	CODE 967-004

## WORKING RANGE

### SOFTWARE AND LICENSE INTERFACE

\* Proposed design only, subject to changes without any notice.

**KNX TRAINING SYSTEM COME WITH COMPUTER SOFTWARE AND LICENSE**

Model Number : GOTT-KNX-P01

U-LINK	CODE 159-019	SAFETY CONNECTING LEAD	CODE 237-001	VERTICAL FRAME	CODE 297-000	EXPERIMENT MANUAL	CODE 146-035
For connecting junction point		4mm connecting leads		High level : DIN standard A4 with two shelves Material: Aluminium Side Frame: T shape Size: 3-Layer 1450mm Length			
							

**EXPERIMENT TOPICS**

- Installing The Ets5 Lite for Knx Project
- Create New Knx Project
- Create A Building Structure
- Putting The Product Catalog Into Your Building Structure
- Assign Physical Address To Participants
- Installation Of Knx Device
- Link Participants In The Same Group Address
- To Execute Program Application
- To Control Incandescent Lamp by Using Dimming and Touch Actuator and Touch Sensitive Multifunction
- To Control Halogen Lamp by Using Dimming Actuator, Dual Control Switch and 2 Gang Push Button
- Using Motion Detector and Switch Actuator to Control Buzzer
- Using Present Sensor Detector and Switch Actuator to Control Lamp
- Using 4CH Binary Input 230V, Switch Actuator and Conventional Switch 4-Fold to Control Lamp

**Manuals:**

- (1) All manuals are written in English
- (2) Model Answer
- (3) Teaching Manuals

**General Terms:**

- (1) Accessories will be provided where applicable.
- (2) Manuals & Training will be provided where applicable.
- (3) Designs & Specifications are subject to change without notice.
- (4) We reserve the right to discontinue the manufacturing of any product.

**Warranty:**

2 Years
